

TRAINING OF DEVELOPMENT OF TEACHING MATERIALS OF SOCIAL VALUES AND NORMS FOR CLASS X FOR SOCIOLOGY TEACHERS OF SMA/MA IN BANTUL DISTRICT

by Amika Wardhana, Aris Martiana, Puji Lestari, Datu Jatmiko

ABSTRACT

PPM activities regarding training to increase the competence of high school Sociology teachers through training in the development of teaching materials for class X Social Values and Norms for Sociology teachers in SMA/MA Bantul Regency were carried out in several stages, including (1). delivery of materials for the development of teaching materials for social values and norms for class X for Sociology teachers in SMA/MA Bantul Regency, (2). Activities independently and accompanied by lecturers to make pocket books in the context of developing material for grade X social values and norms for Sociology teachers at SMA/MA Bantul Regency, (3). the stage of explaining and presenting the results of the pocket book on social values and norms and discussions related to the results.

Based on the results/implementation and discussion, this activity provides the main conclusion that high school Sociology teachers, especially in Bantul Regency, need training/workshops related to their professional development, one of which is in knowledge, capacity and skills to carry out self-development by increasing the quality of knowledge regarding the material covered. in accordance with the 2013 curriculum. Training activities to increase the competence of high school Sociology teachers through training in the development of teaching materials for class X Social Values and Norms for Sociology teachers of SMA/MA Bantul Regency function to support learning in substance with sociology science. There are several groups that are divided in developing teaching materials for grade X social norms and values for Sociology teachers in SMA/MA Bantul Regency. The division of this group serves to complement each other between material values and social norms. The history of scientific development that needs to be clarified again so that the teacher after knowing it can enrich it with other learning resources.

Therefore, this PPM activity needs to be continued with training and freelance workshops for high school Sociology teachers throughout Bantul Regency both in the themes of scientific studies and other relevant skills/skills in accordance with the 2013 curriculum used in schools as well as collaboration with MGMP The sociology of SMA Bantul Regency that has been running so far can be improved in the form of formal cooperation that is mutually beneficial
