ABSTRACT

The implementation of community service regarding the "Bina Karya" Mask and Wooden Sculpture Showroom Arrangement in Bobung, Putat, Patuk, Gunung Kidul Regency, Yogyakarta aims to introduce, add insight, and provide capabilities for the "Bina Karya" Mask and Wooden Sculpture Craftsman Group. in the practice of arranging the "Bina Karya" showroom. It is hoped that these skills can be used as rebranding and product promotion activities online and can improve the creativity and skills of young people in the craft industry. The output is an alternative sketch of the arrangement of the craft product showroom. The method of implementing this service is presentation, demonstration and limited practice by the team during the execution of the work. The enthusiasm and enthusiasm of the participants in participating in the activity was a pleasant result for the PPM Team, and an illustration that this activity was quite successful and would develop in the village.
