

EMPOWERMENT OF IBU-IBU PKK IN EFFORTS TO IMPROVE TRADITIONAL FOOD SECURITY

by Mutaqin, Endang Mulyani, Triatmanto

ABSTRACT

Agricultural products in Sukorejo hamlet vary greatly as rice, banana, cassava, sweet potato, coconut, and so on. All agricultural products can be planted and harvested in each season. However, the use of agricultural variants is still very simple. The service through the KKN PPM scheme aims: 1) The implementation of training on processing of local agricultural products into processed foods that have high economic value, so that the results of training activities through the PPM KKN activities are ready to sell as additional family income for participants. 2) Determine the enthusiasm of participants in participating in training activities for processing local agricultural products into processed foods that are of productive economic value.

The implementation of community service activities is carried out through the KKN PPM program, a collaboration of the Community Service Team with students who are carrying out KKN programs in the Sembung Sukorejo village, Wedi Klaten. The training activities were attended by the PKB Mother-Ubu of Sembung Village which involved two RWs, namely RW 09 and RW 10. The method of activities was carried out with a demonstration model, direct practice and mentoring by the Community Service Team with students. The end of the activity will be evaluated and directed for the future as initial capital to carry out a productive economic business activity.

The results of community service activities through the KKN PPM program are: 1) the implementation of a training program for processing local agricultural products into processed foods that have high economic value, which are ready to sell as additional family income for Ibu-Ibu PKK in the Sembung hamlet community. 2) The enthusiasm of the Ibu-Ibu PKK in Sembung village was very high in participating in training activities for processing local agricultural products into processed foods that were of productive economic value.
