

# WRITING TRAINING WORKS AND SCIENTIFIC PUBLICATIONS JUNIOR HIGH SCHOOL HISTORY TEACHERS IN THE DISTRICT SURAKARTA

by DANAR WIDIYANTA, M .HUM.

## ABSTRACT

Development of researching and writing ability is an important scientific work for teachers to improve competence. However, based on observations of this kind of activity rarely do teachers for various reasons. Proved increasingly rare publication of scientific papers, in the form of books and scientific journals conducted by the teachers. For that, there are several objectives of this PPM, first, providing a concept and depth of knowledge related to the development of research and writing to write scientific papers. Second, provide encouragement, invitations, encourage, and show the way how the skills development of research and scientific works owned by a history teacher. Third, facilitate the delivery of journal articles scientific papers, both the research and development of ideas and thoughts.

The method used in the PPM are, first, training and workshops related to the development of research and writing scientific papers of high school history teacher in Surakarta City incorporated in MGMPs. Secondly, held discussions about models of writing articles that have been published in the journal. Third, the bill held a research article or result idea of ??thinking, which in turn facilitated proposed for publication in scientific journals.

Scientific Writing Training is given to teachers who are members of MGMPs high school history teacher in Surakarta an effort to improve the research carried out in the framework of public service is running well and even got the enthusiasm of the teachers. Starting from the methods implemented as well as the materials presented provide new insights for the participants. Similarly, with a willingness to offer devotees team as assistant in writing and also facilitates to publish the results of the article received a positive response and is considered easier for their teachers, especially for career development of rank.
