ABSTRACT

The purpose of implementing this community service activity (PPM) is to increase the understanding of community members about the basic concepts and theories in the development of an effective and productive Tourism Village in the entrepreneurial aspect, to increase the ability of local residents to plan and implement the development of supporting facilities and infrastructure for Tourism Villages. , develop knowledge and insight of local residents in implementing the design, especially in the construction of prayer rooms in the Tourism Village area. develop a critical and productive attitude for local residents, so that harmonious cooperation can be established between residents and village officials, community leaders, and social organizations in the village area in managing the tourism village community. The implementation of the regional facility development program in the form of a prayer room had been carried out in the previous year's PPM, as a support for the development of the Kalibening Tourism Village area. In the implementation of this PPM activity, several approaches were taken to support the implementation of PPM, such as the provision of building materials, and assistance in the implementation of development. The series of PPM activities does not only include development activities, the next activity carried out as an effort to build facilities and infrastructure in the Kalibening village is to provide assistance to the community in fulfilling the Tourism Village SarPras. Based on the results and discussion on the implementation of the Mushollah Development activity in the Kalibening Tourism Village, Dukun District, Magelang Regency, it can be concluded that overall PPM activities were welcomed by the entire community of Kalibening Tourism Village so that it went well, this was seen from the enthusiasm of all parties such as youth, organizations social workers, and village community leaders in participating in various activities that have been designed in PPM activities. In addition, local residents are also directly involved in the progress in the construction of the prayer room, so that the building can immediately be used directly.
