

Strategy of the Implementation of Kurikulum Merdeka on the Dimension of Global Literacy, Critical and Creative Thinking in Biology Senior High School in Bantul District

by Slamet Suyanto, dkk.

ABSTRACT

Providing learning resources to students to promote their learning pace on global literacy. The learning resources are developed using 16 global literacy schemes. Students learn the materials assisted by the teacher. The learning of global literacy in school is organised using school activities on the curriculum. The instrument to measure the students' understanding on global literacy is test. The data analysis used t test to measure the differences between pretest and posttest scores. The results indicated that the learning resources which is organised in website increases the students' achievement scores in the global literacy. The students seemed to learn eagerly using the website.
