ABSTRACT

As part of Community Service Activities programme (PKM-DLK) which organized by the Department of Communication Sciences, Faculty of Social Sciences, Law and Political Sciences, Yogyakarta State University was held with the aim of introducing the importance of online resilience in accessing social media. This activity was held on 23-24 May 2023 at Madrasah Tsanawiyah (MTS) Muhammadiyah Tawang Sari, Sukoharjo, Central Java. In summary, online resilience itself is the ability to anticipate risks arising from negative content circulating on social media. This understanding is important for teenagers to understand considering that they are a segment that consumes a lot of social media as a means of learning and searching for identity. Therefore, the PKM-DLK activity targeted 30 MTS Muhammadiyah Tawang Sari students from various grade levels to provide an understanding of online resilience. There are 2 methods used, the first is a workshop. Second, an interactive games session with prizes to evaluate the extent of the workshop participants' understanding of the material provided by the lecturer team. The results of the activity evaluation showed that during the workshop session, participants tended to be less courageous in actively participating. It was only when an interactive games session was held that the previously passive atmosphere became more communicative.
