Community Service Program (CSP) aims to improve the understanding and ability of teachers in Mengwi Badung Bali through doing Classroom Action Research (CAR). The target of this program is achieved elementary school teachers in the village of Mengwi as many as 27 people, so the achievement of participants in PPM 100%. This training was conducted in SD No. 3 Mengwi. The method applied is the lecture, question and answer, discussion, and structured practice. The material was delivered by a CSP team in these activities include the concept and overview CAR, penyusunan practice framework / outline of the proposal and its CAR evaluation. Evaluation of the performance and the work of the participants carried out directly during the process and the end of the training activities.

The results in the form of skills training primary school teachers in the region in general is increasing. Initially, many of the participants who did not know the what and bagaimana implementing PTK correctly, after training many teachers have to create a framework / outline proposal PTK. Activities can run smoothly with the cooperation of various parties, both from the team PPM, the local committee of SD No. 3 Mengwi, Mengwi Badung Unit, and elementary school teachers as a trainee. From the results of evaluation of the implementation of PPM participants seemed enthusiastic and motivated in training and want to try to frame a proposal PTK. But on the other hand, there are participants who pragmatic training only to perform administrative tasks.
