

TRAINING SECURITY ACTIVITY IN WATER FOR ELEMENTARY SCHOOL IN SLEMAN

by Fx. Sugiyanto, Ermawan Susanto, Nur Indah Pangastuti

ABSTRACT

The purpose of this PPM activity in general is to conduct Training on Water Security Activities for Primary School Children in Sleman. The specific objectives are (1) To increase the insight and knowledge of extra swimming teachers and elementary students in training of water security activities, (2) Improve the skills of extra swimming teachers and elementary students in training of water security activities.

The results of activities are as follows: (1) There is an increase in the knowledge of extra swimming teachers as well as elementary students about water security activities, (2) Elementary students become more skilled in providing assistance to victims, especially drowning victims, (3) Elementary students become aware of how to save themselves in the event of a disaster in the water, (4) Insight of extra-swimming teachers and also elementary students about water security activities increases. Suggestions submitted for this activity Need to develop training on water security activities for extra swimming teachers and sports teachers in Yogyakarta Special Region
