

TRAINING FOR PREPARING RPP BIG BALL LEARNING MATERIALS BASED ON TGfU FOR PRIMARY SCHOOL PEACHES AND SORTS TEACHERS IN PUNDONG SECONDARY SCHOOL

by Sugeng Purwanto, Yuyun Ari Wibowo, Ismail Gani

ABSTRACT

Not all teachers have the knowledge and experience related to TGfU-based physical education learning planning. TGfU-based physical education learning planning can be outlined in TGfU-based lesson plans. Training related to preparing lesson plans for big ball games based on TGfU for physical education teachers is very important with the aim of equipping physical education teachers to deliver learning in accordance with the applicable curriculum and can make students safe, comfortable and happy in the teaching and learning process. Training activities were carried out in a blended learning manner for 5 days with targets and partners. The training activity provided knowledge and practical experience in preparing lesson plans for big ball games based on TGfU for physical education teachers in Pundong Bantul District. Before implementing training activities, it begins with the target identification stage. It is hoped that this target identification will make training activities run effectively and efficiently. In the identification stage, the service members communicate with peer organizations according to educational levels in Pundong District, Bantul Regency, including IGORNAS Bantul Regency and KKG PJK SD, Pundong District, Bantul Regency. After the training implementation stage is complete, the service team will carry out an evaluation regarding the implementation of the program. Training activities provide knowledge and practical experience in preparing learning plans for big ball games based on TGfU. The knowledge conveyed includes 1) Curriculum 2) RPP, 3) TGfu, and 4) TGfU-based RPP. Regarding practical experience, through training activities teachers are expected to be able to try to practice preparing lesson plans directly, as well as reflect with the guidance of the presenters and training colleagues. The training activities were carried out well. Participants had high enthusiasm and were shown active in discussions and preparing lesson plans. Participant satisfaction is in the high category based on the results of the questionnaire with indicators of material, resource persons and implementation of activities.
