

Development of Educative Little Media Kartu Tematik to Grow the Process of Active and Joyful Learning in Elementary School at Sekolah Dasar Wirosari Ngaringan Grobogan

by Sungkono, M.Pd., dan Deni Hardianto, M.Pd., Suyantiningsih, M.Ed.

ABSTRACT

This Community Service Program (PPM) activity aims to 1) Increase teachers' knowledge and skills on techniques and procedures to develop educative little media (APE) Kartu Tematik that can be used to support elementary school teaching and learning process; 2) Produce educative little media Kartu Tematik that can be used in the teaching and learning process in elementary school.

This PPM activity was conducted at Wirosari Elementary School, Ngaringan subdistrict with 25 subjects. Methods that has been used are Lectures and Questions, Demonstrations, Practices, and Assistance/tutorials. Lecture, question, and answer methods are used to convey and inform participants about the making of educative little media. The method of practice, used to provide an opportunity to create educative little media for one topic on a particular subject. Meanwhile, mentoring method is used to assist participants in making APE to obtain good results.

The result of PPM activity in Wirosari Ngaringan Elementary School, can be concluded that 1) The participant's knowledge about the technique and procedure of educative little mediadevelopment Kartu Tematik has been mastered well so that it can produce educative little media for all subjects in elementary school. 2) This training activity has resulted educative little media that consists of flash cards, letter cards, word cards, and pairing cards, which can be used to support learning activities in primary schools.
