*This Community Service Program aims to improve the ability of elementary school teachers in District Batur Banjarnegara to improve students' social skills through the implementation of cooperative learning models. The user target was 25 teachers who have the potential to be given training.*

*This training was held at SD N 1 Batur for three days. The method used in this training is brainstorming, lecturing, simulation, and presentation. The material presented in this training included 21st century learning, social values ??of students, cooperative learning models, preparation of teaching plan using cooperative learning models, and the implementation of cooperative learning models in the classroom. The results of this training can be seen from the increase in teacher understanding at the end of the training which reached 80% or 21 people. The ability of teachers to apply the model also increased by a percentage of 85%. Overall the implementation of training is in a very good category with a percentage of 91.75%.*
