

Revitalization of Local Wisdom Values in the Sadranan Tradition to Strengthen Social Harmony

by Suranto Aw., Danu Eko Agustinova, Nur Dwi Lestari

ABSTRACT

The variety of local wisdom that grows and develops in society is an extraordinary wealth and is a source of inspiration for the values ??of harmonious social life. In-depth study of the potential of local wisdom on the one hand and adherence to values ??on the other hand to be actualized and revitalized in academic texts about local wisdom values ??to strengthen social harmony in society are strategic steps to face the onslaught of global information. Relevant to this problem, the objectives of this research are: (1) To describe examples of local Javanese cultural wisdom values ??contained in the sadranan tradition that are relevant to be revitalized and manifested in strengthening social harmony in society; (2) Analyzing the methods used by the community to revitalize the values ??of local Javanese cultural wisdom contained in the sadranan tradition; and (3) Describe the concept of social harmony based on local wisdom that is easy for community members to understand and implement. Qualitative methods are used as a research approach, so this research prioritizes the meaning of the data, and then describes it narratively. Data collection techniques use observation and interviews. The data analysis technique uses interactive analysis.

Kata Kunci: *Revitalization, local wisdom values, social harmony*
