

SOCIALIZATION OF MOTORCYCLE FUNDAMENTALS FOR TEACHERS AND GUARDIANS OF SPS TUNAS GILANG STUDENTS

by Sujarwo, Yudanto, Ridho Gata Wijaya

ABSTRACT

The knowledge of teachers and student guardians about the motor skills that children aged 2 to 5 years must have still needs to be improved. There are still children aged 2 to 5 years who lack motor skills. The equipment owned by PAUD is still lacking. Rarely does training for parents of students regarding motor skills at school. The solution offered by the service provider to the problems faced by PAUD teachers and parents is: providing training to teachers and parents of PAUD students on basic motor skills, providing material for 1 month a week 1 time a helper provides fine and gross motor material to children in PAUD , providing tools used during service, both fine motor tools and gross motor tools, to PAUD institutions. The result of this service is an increase in the knowledge of teachers and student guardians about the importance of basic motor skills in early childhood with an increase in the pre-test mean from 61.57 to 89.47. The conclusion from the activities of lecturers who carry out activities outside campus with basic motorbike themes can increase the knowledge of teachers and student guardians at SPS Tunas Gilang.
