

Teacher Comic Media Development Training for Student's Independent Learning and Coping with Disease Outbreaks in UPTD Pendidikan Gantiwarno Klaten

by Sungkono, M.Pd., Dr. Mulyo Prabowo, M.Pd., Aryawan Agung Nugroho, S.T.,M.Pd, Novi Trilisiana, S.Pd.,M.Pd.

ABSTRACT

This development training aims to 1) Increase the knowledge and skills of teachers about techniques and procedures for developing comic learning media. 2) Produce learning comic media that can be used in elementary schools learning process. This development training activity was carried out through a zoom meeting with 25 participants as subjects. The methods that will be used are presentation, discussion, demonstration, practice, and mentoring/tutorial. Presentation and discussions are used to convey and help the participants to understand about comic learning media. The practical method is used to provide an opportunity to create comic learning media for a topic on a particular subject/theme. The mentoring method is used to assist participants in making comic learning media in order to obtain good results.

The results of development training of comic media activities in the Elementary School of Gantiwarno Klaten District can be concluded: 1) Increased participants' knowledge and skills regarding techniques and procedures for developing comic media; 2) Construct/produce draft of comic learning media.
