

## IT based German Learning in the Highschool

by Dr. Sufriati Tanjung, M.Pd., Drs. Sudarmaji, M.Pd., Dra. Retna Endah SM, M.Pd., Dra. Sri Megawati, M.A.

### ABSTRACT

The aim of this community service that done by the PPM-Group of German Department, Language and Art Faculty, the Yogyakarta State University is to train the teachers of German Language to have knowledge, concept and skills in using IT. Beside, they are able to use IT in their teaching in the class room.

These activity is a one day workshop in eight houers. Than the results will be monitored one day after the workshop. The steps in the workshop are delivering the materials about blog, practicing in making a blog, and followed by a group discussing.

The result of these workshop is the highschool teachers have IT knowledge in making a blog, and they are able to create a blog for reading- and writing skills. Furthermore, the teachers are enthusiast in discussing the material with their colleagues. They hope that the workshop can be continuously with other materials.

Kata Kunci: *German language learning, blog*
