ABSTRACT

Members of Shabat Prestatif Yogyakarta were having difficulties in accessing sources and trainings to improve skills in preparing an academic proposals, research, report, as well as a presentation. The problems have declined their productivity in creating academic writings and winning competitions. This community service aimed to provide access to trainings and materials in improving academic writing and speaking to the members. It is expected that at the end of this community service, Sahabat Prestatif Yogyakarta members will be able to improve their understanding on the concept of academic writing and speaking including writing a paragraph, essay, using referencing tools, and presentation skills. Based on the evaluation conducted at the end of the community service program, we have achieved the aim of the program.

Kata Kunci: *Academic Writing, Members of Shabat Prestatif Yogyakarta.*
