

# TRAINING ON THE DEVELOPMENT OF E LEARNING MODELS FOR SMP CULTURAL ARTS TEACHERS IN THE DISTRICT SLEMAN YOGYAKARTA

by Zulfi Hendri, Kasiyan, B. Muria Zuhdi, Maraja Sitompul, Djoko Maruto

## ABSTRACT

### ABSTRACT

The professional development of an educator is not only related to the domains of science and art, but also technology. In the field of technology, many teachers experience obstacles, including the Junior High School Cultural Arts teacher in Sleman Yogyakarta. Therefore, the aim of this activity program is to provide training related to knowledge, both theoretical and practical, about e learning, especially for online learning. The implementation of this e learning activity uses lectures, discussions, practices, and assignments. This training was attended by 22 teachers of the Sleman Regency Junior High School of Cultural Arts. The implementation of this training activity was held on 13-30 October 2020. The focus of the material and activity procedures were: 1) providing theoretical and practical knowledge of e learning media for online learning; and 2) making online learning media. The results of the implementation of this training activity are: 1) in terms of process, all participants in this training activity are very enthusiastic, excited, and have high motivation to participate in this activity; 2) the products produced are 3 learning models based on google classroom and 19 based on zoom meeting / google meet with good quality. The product from the training is followed up with a guidance process so that it is ready to be used in online learning for the 2020/2021 academic year even semester.

Kata Kunci: *training, online learning, teachers' professionalism*
