### **ABSTRACT**

The aim of the activity is to increase the understanding of the community members about making a plan for developing tourist locations in the tourist village of Jatinom, Jatinom District, Klaten Regency for the empowerment of local communities. The targets of community group activities that will be targeted by PPM activities, in this case, are: (1) Jatinom Village officials, (2) Jatinom Village youth organizations and youth organizations and hamlet youth managers in the village, (3) community leaders and Jatinom Village religious leaders, and (4) administrators and members of the Jatinom Village Tourism Awareness group. The approach used is training and mentoring, field surveys, data collection, data processing, and preparation of siteplan reports. The follow-up of this PPM activity is the development of facilities and infrastructure in accordance with the results of the site plan for the Tourism Area of Jatinom Village, Jatinom District, Klaten Regency and the making of posters in the tourist area. The implementation of the siteplan making activity in the Kali Jetis Section, Jatinom District, Klaten Regency, Central Java, it can be concluded that overall PPM activities are going well and getting positive responses from community members and village officials. The residents are quite enthusiastic about a series of activities that have been designed by the PPM UNY Team. In addition, local residents are also directly involved in making a siteplan for the Jatinom Village Tourism Area, Jatinom District, Klaten Regency. The output of this activity is a siteplan image of the Jatinom Village Tourism Area, Jatinom District, Klaten Regency.

*Kata Kunci: siteplan, tourist areas, empowerment of local communities*
