ABSTRACT

The curriculum has an important role in achieving educational goals and graduate competencies, it is unique to a study program at a university so that it is hoped that graduates of the study program will have comparative advantages, high quality and competitiveness. The aim of this activity is to socialize the implementation of the PKO National Curriculum to the PKO Study Program Coordinators throughout Indonesia. This socialization activity was attended by PKO Study Program Coordinators in Indonesia with a target of 20 study programs. This activity was carried out offline in Yogyakarta.

The result of this activity was the implementation of the Socialization of the Implementation of the PKO National Curriculum among the PKO Study Program Coordinators throughout Indonesia. With this activity, it is hoped that it can provide an overview of the implementation of the National Curriculum for PKO study programs. So that the study program coordinators can jointly create a national curriculum for the PKO study program. In this way, PKO alumni have uniform competency standards. The output of this PkM is a Collaboration Manuscript (IA) and the results of this PkM will be published in the International Journal Humanitarian Responsibilities, Education & Sport Sciences (IJHRESS).

Kata Kunci: *Socialization, Implementation of the PKO National Curriculum, PKO Study Program.*
