

DEVELOPING TEACHING MATERIALS OF JAVANESE LANGUAGE FOR FOREIGN SPEAKERS

by Endang Nurhayati, Avi Meilawati, Galang Prastowo, Doni Dwi Hartanto, Hendi Yuniarto, Wang Dandan

ABSTRACT

This research aims to 1) developing a curriculum for learning Javanese for foreign speakers, 2) write a basic handbook of Javanese language for foreign speakers. This research is R and D research that the outcome is products. The research try to develop longitudinal research that create a whole level of mastering Javanese Language for Foreign Speakers. The first year is maping the curriculum and write the basic level book. Second year write the intermediate level. Third year write the advance level. The users of this products are students in Beijing Foreign Studies University, Beijing, China. Javanese language curriculum mapping is needed to meet market needs and disseminate Javanese language to various groups, namely non-Javanese speakers. It aims to facilitate the learning process, both from planning and evaluation.

Kata Kunci: *Javanese language, curriculum, books*
