ABSTRACT

This study aims to determine the understanding of the academic community on the content and implementation of the vision and mission of FIP UNY. The academic community includes leaders, lecturers, education staff, and students in 2022. This research is a survey research. The research approach used is descriptive quantitative with percentage technique. Respondents of this research are leaders, lecturers, education staff, and students. The instrument is a closed questionnaire containing choices of statements to be filled out by respondents related to the understanding and implementation of UNY's vision and mission. The instrument is written in a google form and distributed online either via whatsapp or email. Analysis of the results of the survey on the understanding of the academic community of FIP UNY on the implementation and contents of the Vision and Mission of FIP UNY showed that most of the academic community showed adequate understanding. In the aspect of implementing the Vision and Mission of FIP UNY, understanding is shown through the assessment of the academic community on the distribution of areas of clarity, realism, implementation, variety, attractiveness, continuity, and usefulness, as well as the suitability of tasks with the competence of lecturers in fulfilling the faculty's vision and mission, and the role of each component of the academic community. . The results show that all these aspects are adequate, which is characterized by the majority of choosing the expected response. Likewise, the understanding of the academic community towards the contents of the Vision and Mission of FIP UNY mostly shows the expected response. Understanding the contents of the Vision and Mission includes understanding of the editorial, basic underlying values, mission, the meaning of the word 'enlightenment', the meaning of the word 'scholarship', the meaning of the word 'leading in character education', and the meaning of the word 'national perspective' from the Vision and Mission of FIP UNY . q
