

SURVEY TRACER STUDY UNTUK PENGEMBANGAN PROGRAM STUDI PENDIDIKAN JASMANI KESEHATAN DAN REKREASI (PJKR) FIK UNY

by Dr. Hedi Ardiyanto Hermawan, M.Or., Dr. Guntur, M.Pd., Dr.Komarudin, M.A., Ahmad Rithaudin, M.Or., Dennis Dwi Kurniawan, M.Pd.

ABSTRACT

The purpose of the tracer study research is to find out the competency profile of the alumni of the PJKR Study Program after participating in the learning process at the PJKR FIK UNY Study Program using the PJKR Study Program curriculum, identify the obstacles faced by alumni during the learning process of the PJKR FIK UNY Study Program, to find out the relevance of the curriculum applied by the PJKR Study Program to their needs. the job market, providing input on the development of study programs, especially improving the quality of learning, obtaining an overview of the competencies needed by alumni users, providing input on improving the quality of learning in accordance with the demands of the world of work. Research Methods The Tracer Study uses a survey method. The population in this study were alumni or graduates of the PJKR FIK UNY Study Program. The participants of this research are planned as many as 200 people who will be divided equally into 4 categories from 2000-2021 graduates. The data collection technique used was obtained by distributing questionnaires through google form with sampling using purposive sampling technique. Data for this study were collected using an open questionnaire. The data analysis technique uses quantitative descriptive analysis to be able to provide detailed information. Results: Based on the results of research and discussion that have been presented in the previous subject, it can be concluded several things related to this research, namely; tracers have been identified for the alumni of the PJKR study program from the total data of 200 alumni and the Physical Education Masters program as many as 8 alumni. In addition, it can also be concluded that there is a relevance between the curriculum in the PJKR study program and Masters in Physical Education and the competency of alumni.
