ABSTRACT

The main problem faced by Sekolah Dasar (SD) Masjid Syuhada was they did not have a quality assurance system in formal legal form. This community service aimed to assist SD Masjid Syuhada in improving their quality assurance system to enhance the quality of education in SD Masjid Syuhada. Member of community service provided a workshop about The Implementation of Quality Assurance for Elementary School. The participants of the workshop were principal of SD Masjid Syuhada, quality assurance team, members of the school committee and members of Syuhada Foundation. Before Workshop, the team did coordination with the school to planned the workshop material. Workshop held on Thursday, April 12th 2018 for 3 hours. Following the workshop, assisting activities was done by the member of community service for 16 hours. In general, it can be shown from the evaluation questionnaire filled by all participants and the participation during the discussions session that of The Implementation of Education Quality Assurance in Sekolah Dasar Masjid Syuhada was positive. Also, most of the participants gain benefits from the workshop because the material was very valuable to develop the quality of quality assurance system in SD Masjid Syuhada.
