

Scientific Writing Training for Middle School Teachers in Sleman Regency, Yogyakarta

by Hartono, Suroso, Anwar Efendi, Teguh Setiawan, Tadkiroatun Musfiroh, Prihadi

ABSTRACT

There are two objectives of this PPM activity, namely (1) to increase knowledge about the ins and outs of writing scientific papers, especially journal articles for teachers of SMP Sleman Yogyakarta; (2) improve the ability and skills to write scientific papers, especially journal articles among teachers of SMP Sleman Yogyakarta.

The most suitable form of activity to achieve this goal is "Scientific Writing Training for Middle School Teachers in Sleman Regency, Yogyakarta". The training activities are carried out systematically, from theoretical to practical activities, namely by using lecture methods, question and answer, practice, and brainstorming. The participants of the training are Indonesian language teachers who are members of the Indonesian Language MGMP of SMP Sleman Yogyakarta. PPM activities will be held on Saturday, August 28 – September 4, 2021.

PPM has been implemented well. However, because the Covid-19 situation has not subsided, this PPM is carried out online. There are twenty participants who can actively participate in the activity from beginning to end. Participants came from school representatives selected by the Indonesian Language MGMP management in Sleman Regency. Participants receive theoretical and practical material related to writing scientific articles to sending them to scientific journals for publication. From the implementation of the training activities, it can be concluded that most of them can understand and increase their skills in writing journal articles. Of the 20 participants who took part, there were still 3 participants who had not finished writing their articles.

Kata Kunci: *training, scientific writing, article*
