## **ABSTRACT**

The aim of the public service is to Increase Productivity Research-Based Research Proposal Writing for Javanese Junior High School Teachers in Kulon Progo. This public service was conducted in September and October (3, 10, 20 September and October 1) for 4 times training. While assistance to determine the success of the training was conducted for one month. Some of the activities carried out in this training include: presentation of the material, lectures, discussions, and practice writing an outline proposal of research R & D outline later in more detail. Mentoring done by checking the implementing PPM activities via telephone, email, or BBM or participant asked via phone, email, or BBM. In addition, participants can also inquire directly with ways to come to the Javanese Department, ??FBS, UNY. The results of the implementation of Community Services are the participants were able to draft a proposal of research R & D to help with preparing the outline first. Results in line with targets despite changing the starting date and the target audience.
