

# LOCAL WISDOM IN ENVIRONMENTAL MANAGEMENT IN THE VILLAGE OF PANGLIPURAN, BANGLI

by Dr. Dyah Respati Suryo Sumunar, M.Si, Suparmini, M.Si., Sriadi Setyawati, M.Si., Mawanti Widyastuti, M.Pd.

## ABSTRACT

The life of traditional communities or indigenous peoples is always interesting to know and study, both in relation to their Lord, social relations, even in relation to the environment and the surrounding universe. This study is to find out how (1) the geographical physical environment of Panglipuran Customary Village, (2) how the Panglipuran Indigenous Village community maintains and manages its natural environment, including its abiotic, biotic and cultural environment, and (3) how the Panglipuran Indigenous Village community local wisdom-based management and preservation. Observations, and interviews with several community leaders, village heads, adat leaders, and community members were conducted to find out and answer research questions.

Kata Kunci: *Traditional Society, Panglipuran Traditional Village, local wisdom, environmental management*
