ABSTRACT

The purpose of this PPM activity is to refresh the knowledge that has been possessed by PJOK junior high school teachers in Bantul Regency about the importance of learning physical education, sports and health (PJOK) with the TGfU model approach related to the material of big ball games, especially football games as a means to realize PJOK learning objectives in junior high school.

The target audience of this PPM activity are all teachers of Physical Education and Health (PJOK) for Junior High Schools (SMP) in the Bantul Regency area.

Community Service Activities with the title "Refreshing PJOK Learning with the TGfU Model Approach for Football Game Materials for PJOK Teachers at Middle School Level in Bantul Regency" can run well. Community Service Activities are carried out for 1 day, namely Thursday, March 25, 2021, at 08.30 - 14.30 at SMP Negeri 1 Sewon Bantul Yogyakarta. The PPM, which was planned to be followed by 45 teachers of physical education, sports and health, from all junior high schools in Bantul, turned out to be attended by 40 teachers of physical education, sports and health.
