

# COMPARATIVE STUDY OF BULUTANGKIS , TENNIS AND GYMNASTIC IN DIY

by Abdul Alim, Ch. Fajar Sriwahyuniati, Tri Hadi Karyono, Risti Nurfadhila

## ABSTRACT

Research Objectives: 1) Knowing the pattern of coaching badminton in DIY, 2) Knowing the pattern of coaching tennis court in DIY, 3) Knowing the pattern of coaching gymnastics in DIY, and 4) Assessing the comparison of coaching patterns in badminton, field tennis and gymnastics in DIY.

Research Methods: The research design used in this research is descriptive research using comparative descriptive research that aims to find out the comparison of coaching of badminton, tennis, and gymnastics in DIY. The population in this study are schools, badminton clubs, gymnastics and tennis courts and KONI in DIY. The sampling technique used in this study is population sampling technique. Data collection techniques used were observation, questionnaires, and interviews. The three data sources are then analyzed by bringing together the data (triangulation of data).

Research Results: There are still a number of items that have not been maximized in the process of fostering the achievements of badminton, tennis and gymnastics. Based on the data obtained, it is badminton that has fewer obstacles than tennis and gymnastics. Research data shows that the achievement of badminton achievement is the highest compared to the branches of tennis and gymnastics
