

# INCREASING COMPETENCY OF TEACHERS OF SMKN 2 WONOSARI GUNUNG KIDUL THROUGH CLASSROOM ACTION RESEARCH

by V. Lilik Hariyanto, Dian Eksana Wibowo, Nur Hidayat, dan Galih Nur Indriatno Putra Pratama

## ABSTRACT

The purpose of PPM: (1) improve the quality of learning of graduates of SMK 2 Wonosari Gunung Kidul,(2) improve the knowledge and skills of SMK 2 Wonosari Gunung Kidul teachers in conducting classroom action research (CAR).

Activity method: (1) lectures to explain the theory,(2) guided independent training for PTK proposals,(3) assistance for the PTK implementation process to the writing and reporting of research results. Target: teachers of SMKN 2 Wonosari, Gunung Kidul, Department of Building Engineering. The PPM implementation, carried out serially, began in July 2019 and ended in November 2019, at the Hall of SMKN 2 Wonosari, Gunung Kidul. Participants: 26 teachers from building majors, expertise competency: (1) Building Modeling and Information Design,(2) Stone and Concrete Construction Techniques. Lecture time 2 hours, followed by questions and answers until the end of the allotted time. The assignment is given by the principal to the teachers, so that they make a CAR proposal which can then be implemented for classroom action research in the class they support.

Conclusion: (1) trainees still need similar training,(2) PPM program can increase knowledge and skills for teachers of SMK 2 Wonosari Gunung Kidul,(3) PPM programs can be used to improve the quality of the learning process. Suggestion: (1) for the training participants, the lowest they have received can be further developed,(2) for local educational institutions, so that teachers are encouraged and motivated and maybe even opportunities to develop classroom action research at every opportunity,(3) for LPPM UNY, in order to increase cooperation more synergistically
