## ABSTRACT

The purpose of carrying out community service activities (PPM) is to provide increased understanding, knowledge development, and mentoring to Kalibening villagers about the construction of a pavilion in Kalibening Village, Dukun District, Magelang Regency for the empowerment of local communities. The potential slopes of Mount Merapi located in Kalibening Village, Shaman District are optimally utilized as a tourism village because there are regional arts and cultivation of Pondoh Salak cultivation that can be used as Agro Tourism. Meanwhile, supporting facilities owned by the community in Kalibening Village, Shaman District can be said to be non-existent, therefore it is very necessary to have the first step in the form of construction of the Kalibening Tourism Village area, Shaman District. The implementation of the regional facility development program that was previously carried out in the previous PPM, to support the development of the Kalibening Tourism Village area, also required the construction of a pavilion.

In the implementation of PPM activities, a number of approaches were used to support the implementation of PPM such as training and mentoring. In its implementation Kalibening Village residents received training in building scale measurement, training in building material calculation, training in construction planning, and training in the application of roof truss construction and its closure. The series of PPM activities not only include training activities, the next activity carried out as an effort to build facilities and infrastructure in the village of Kalibening is to provide assistance to the community in fulfilling facilities and infrastructure Desa Wisata.

Based on the results and discussion on the implementation of the Kalibening Tourism Village Development Hall, Shaman District, Magelang District, it can be concluded that overall PPM activities are welcomed by all Kalibening Tourism Village communities so that it runs well, it is seen from the enthusiasm of all parties such as youth, organizations social and village community leaders in participating in various activities that have been designed in PPM activities. In addition, local residents are also directly involved in the construction of the pavilion, so that the knowledge gained from the trainings that have been followed can be applied directly.
