

Socialization of Physical Literacy-Based Kindergarten Students' Basic Movement Development Model

by Tomoliyus, Yudanto, Aris Fajar Pambudi

ABSTRACT

This community service activity is motivated by the importance of developing basic movements for kindergarten students. This community service activity aims to socialize the physical literacy-based model of basic movement development of kindergarten students for kindergarten teachers.

The method in this community service activity is designed in the form of lectures, discussions and assistance in the preparation of a physical literacy-based model for developing basic movement for kindergarten students. Presentation of the material through power points and a simulation of the basic movement development model for kindergarten students based on physical literacy through video. Feedback is done by means of documentation studies and questions and answers. The success of this community service activity is determined by the target or level of participation of participants in this community service activity, namely teachers or kindergarten principals in Central Cilacap District, Cilacap Regency, totaling approximately 26 people. The results of this community service activity can be reported as follows: 1) community service activities have been carried out on Tuesday and Wednesday, October 5 and 6 2021, from 08.30 WIB - finished online. This activity was attended by 26 kindergarten teachers/principals in Central Cilacap District, Cilacap Regency. The implementation of both theoretical and practical activities can run well and smoothly as expected.
