ABSTRACT

Abstract

Community service is an activity performed lecturer to devote their knowledge to solve problems in the community. Community service on a regional development scheme aims to help a physics teacher at SHS/ISHS/VHS in Wonosobo regency in preparing scientific journal articles. Sources of data come from a classroom action research (CAR) that has been done before by the teacher. The method is a workshop and training includes socialization, mentoring, tutoring, and product presentations. Target activity is 30 physics teachers from SHS/ISHS/VHS in Wonosobo regency. Community service have resulted in 6 scientific journal articles are composed by two physics teachers at SHS and four physics teachers at VHS in Wonosobo regency
