

# **Identification Training for Children with Special Needs to improve PAedagogic competence of PAUD teachers**

**by pujiyanti fauziah, nur azizah**

## **ABSTRACT**

Training on identification of Children with Special Needs conducted in displays with 40 participants, this training aims to increase educator knowledge about the characteristics of children with special needs, to know about the types of children with special needs. The training begins with socialization, coordination and implementation. Participants come from kindergartens, play groups, child care parks and from similar PAUD units.
