ABSTRACT

The Off-Campus Lecturer Program related to Motor Skills Test Training for Teachers at TK Negeri Pembina Yogyakarta City is considered very useful to provide new knowledge in monitoring the ability of students' motor skills. The implementation of motor skill tests at TK Negeri Pembina can be carried out periodically. This activity is expected to increase teachers' attention to the development of students' motor skills at TK Negeri Pembina. The teacher can immediately assist if there is a delay in mastering motor skills.
