### **ABSTRACT**

Publication of scientific papers is one part of teacher competence in the professional field. Most Public SMK Negeri 1 Wonosari teachers have never published scientific papers for five years. Some of the obstacles faced include not having experience, not having ideas, not having time. To help teachers produce quality scientific work, it is essential to conduct training in writing scientific papers. The methods in this service activity are lectures, demonstrations and discussions. Community service activities were successfully carried out on July 14, 2023, at SMK Negeri 1 Wonosari. The success of service activities are: 1) there has been an increase in the average increase in participants' knowledge in scientific writing training, 2) there has not been an increase in the number of scientific papers produced by participants in scientific writing training, 3) the number of participants taking part in writing scientific papers is 100%, 4) All participants are satisfied with scientific paper writing training activities that have been held

Kata Kunci: *writing scientific papers, professional teachers, vocational teachers*
