## ABSTRACT

Daerah Istimewa Yogyakarta is the one of province in Indonesia that has been declared themselves as the inclusive education. This declaration makes the DIY government started of change, especially in education system that can provide optimum services to all the learners. One of the policy of taken is doing socialization about the meaning of inclusive education with explained one of the school indicator of inclusion, that is accommodation all the learners, including students with special needs. One of the impact of this socialization is the teachers in regular school started analysis, whether they have students with special needs or not. The fact showed that almost the school have students with special needs. The problem is they has difficulties to identifies the kind of special needs of the learners, also how to accommodate them in a learning process. This problem also occurred in Gugus 01 UPT PPD Bambanglipuro sub district.

The aims of devotion society is to improve the understanding and skills of the teacher about the programme of students learning with special needs in Gugus 01 UPT PPD Bambanglipuro sub district. The result of devotion showed that teacher still confused in make decision based on the results of assessment, so it can't focus on the arrange the programme of learning for students with special needs. However, the result of evaluation showed the increasing of the teachers about the steps of arrange the programme of students learning with special needs at the inclusive education.
