

PRESERVING TRADITIONAL GAMES THROUGH THE THEORY AND PRACTICE OF TEACHERS OF THE PRIMARY SCHOOL PENJASORKES SEKECAMATAN TURI SLEMAN REGENCY OF YOGYAKARTA

by Sudardiyono dkk

ABSTRACT

Teachers of physical education and health (penjasorkes) se sub Turi is in need of guidance and training in traditional games, due to the knowledge and understanding of the traditional game many still experience difficulties what else when to implement the curriculum in elementary school. Objective PPM FIK UNY is to preserve the traditional game, and help the teachers Penjasorkes se sub Turi to have knowledge and understanding of traditional games so do not have difficulty learning. The methods used in conducting the activities of the PPM method: using the first speller lecture PPM received material with lectures from the instruktuktur methods of the theory of traditional games presented in the classroom. The second method uses a drill that is participants do exercise in the field, after getting the theory in class by the instructor and then in praktikkan by all participants. From the beginning of the exercise participants are still having difficulty, but after doing repetitive participants increasingly understand the game is done, although it still needs to be briefed by the trainer, not only players who have difficulties but officers are still making mistakes, but after repeated error is also on the wane. The third task peberian Methods: i.e. all participants who are already training in the classroom and the next will be in the field praktikkan in each school under the supervision of a team of PPM. The results showed that the PPM Team performed this activity very expect by teachers Penjasorkes se sub Turi. Because of the activities of the PPM conducted this may follow by all teachers penjasorkes sekecamatan Turi totalling 24 school and all teachers can follow this activity. The completion of these activities is expected to traditional game which is already given in the form of theory and practice will be made in implementing the tasks in school and can be developed according the conditions and circumstances that exist in Turi.
