ABSTRACT

Abstract

The youth volleyball championship has been held by PBVSI DIY Province in 2005 and 2006. When it uses a home and a way competition system, or once played at home and once had to play at the opponent's home. When it was from a number of clubs in DIY it was divided into two pools. The players played very enthusiastically, but the club's board complained a lot. Club administrators must find funds to finance player transport, and player meals, as well as finance the hosting of matches. Given that at the 2020 youth championship, the involvement of the club is limited to volleyball clubs in Sleman Regency, then in the upcoming event the involvement of participants should be more extensive and should be included in the flagship PPM in order to get adequate funding assistance. Volleyball club in Sleman Regency who cannot participate is expected in the next year can participate

Kata Kunci: *volley ball, youth*
