

PENGEMBANGAN DESAIN TATA LINGKUNGAN BANTARAN SUNGAI MENJADI WAHANA BELAJAR ALAM DEVELOPMENT OF RIVERSIDE

by Soeharto, Ikhwanuddin, Muhfizaturrahmah, M. Khairudin

ABSTRACT

This paper presents riverside area development into educational and recreational nature spot. The development was carried out through need assessment, feasibility assessment, design, feasibility assessment of design, implementation and evaluation. The development of riverside area was conducted at Pelang River, RT 08 RW 60 Joho, Condongcatur, Sleman, Yogyakarta. The result of the design shows that the harmony of river, village and area planning could be achieved. On its implementation, selfie spot, selfie tower, gazebo, hanging out spot, and mini fountain had been constructed. All of these recreation spots invites people to spend more of their leisure times around the areas.
