ABSTRACT

The batik training based on local wisdom and environment friendly aims to provide solutions to the problems of waste treatment through training and to develop the creative industries towards establishment of batik tourism village.

The method implemented is a lecture about waste batik, batik demonstration regarding development based on local wisdom region, as well as the practice of making batik motif to take the basic idea of ??local wisdom of Lendah area, then apply a motif developed on the fabric and batik.

This activity is beneficial in providing solutions on partner's problems, associated with increased productivity, efficiency and effectiveness of production, so as to improve the quality and quantity of production and the development of batik artisans in lendah kulonprogo.
