

EVALUATION ERROR BOOK SCHOOL ELECTRONIC (BSE) MATHEMATICS MATERIAL TRIGONOMETRY

by Rusgianto Heri Santosa, Sugiyono, Tuharto

ABSTRACT

Abstract-Learning is the process of communication. Communication is the delivery of messages by source to receiver. Good communication if the message is contained as a source of learning (reference books students) will determine the quality of learning outcomes. If the source of learning is not good of course the results of the learning process in the form of learning achievement will not be maximized. Ministry of National Education of Indonesia initiative to provide electronic books or often called Electronic School Book (BSE). Through the analysis and evaluation of BSE, this study aims to find out a mistake in the Electronic School Book (BSE) Mathematics Trigonometry material and to know the type of error contained in School Book Electronics (BSE) Mathematics material Trigonometri SMA. The results of this study indicate that there are errors in BSE Mathematics, especially Trigonometry material. The types of errors contained in the BSE book are technical errors (incomplete word phrases and word errors), image accuracy, symbol misuse, unrealistic error-making errors, and concept errors.

Kata Kunci: *evaluation error, BSE, trigonometry*
