

Workshop on Developing HOTS-test items for English Teachers of MTs in Kebumen Regency Central Java

by Jamilah, Agus Widyantoro, Ari Purnawan, Suharso, Sudiono, Wipsar Dona Siwi Ikasari

ABSTRACT

This community service is meant to train the English teachers of MTs. in Kebumen Regency on how to develop good assessment tool, or test items in the format of multiple choice with HOTS issues. Developing assessment tools is a crucial part of professional jobs of teachers, however, many teachers still find it hard to do so. This training is expected to help them in solving this problem. This teacher training was in form of workshop for 3 days, in which the participants engaged in online activities in day 1 and 2. Here the participants got information on how to develop test and try to implement this theory into practice. In day 3, all participants and trainers meet face to face in MTs Al-Ghozali Mirit Kebumen. Here the participants show their products and got some feed-back from the trainers.

The out-put of this program is sets of examples of test blue-prints and multiple choice test items. All the participants are satisfied with this workshop since they find it very beneficial. They expect to get similar trainings in the future.
