ABSTRACT

ABSTRACT

Since the enactment of Permendiknas no. 35 year 2010 which began to be treated since January 1, 2013, then career first grade IIIb class of teachers who will rise to the position of the first teacher of grade IIIc, must carry out the work of innovation / scientific publication. Community Service (PPM) is aimed at helping and guiding SMK teachers to productive subjects for writing scientific publications or writing classroom action research proposals.

PPM is implemented through blended training. The presentation strategy of article writing material and writing of class action research proposal is done face to face and online tutorial. Furthermore, the guidance process is done online, and at the end of faculty mentoring, as well as monitoring the training activities. The training results of two teachers wrote a submitted scientific article in popular Wuny magazine and a scientific journal of COPE teachers.
