## ABSTRACT

The government's strategic effort to face the challenges of the 21st century is to improve the quality of Indonesian people through improving the quality of education. One of the emerging skills that must be mastered is Islamic financial literacy. The Islamic financial literacy index of the Indonesian people is still relatively low. The objectives of this PKM activity are: 1) Building economic independence through financial skill building for teachers and parents of PKBM Al-Islam Giwangan students; 2) Improving Islamic financial literacy for teachers and parents of PKBM Al-Islam Giwangan students; 3) Improve the ability to use Augmented Reality-based Islamic financial literacy education media which is an educational product of the service team; 4) Improve the ability to use the Islamic financial literacy education platform "literaci.id" which is an educational product of the service team. This PKM activity was carried out online on September 3, 2022 starting at 08.30 and ending at 13.30 WIB, with 30 participants. PKM activities include training and practice using lecture, discussion, and demonstration methods. The results of PKM activities are: 1) PKM activities can run well and smoothly and the participants' assessment of the implementation of PKM is also very good; 2) Participants get great benefits because they gain new insights and knowledge about Islamic financial literacy; 3) The motivation and enthusiasm for participating in the training was very high because the responses given by the participants were very active during the training and mentoring process; 4) Service participants feel happy and satisfied with this service activity and hope that Islamic financial literacy education activities can continue to be carried out in the future.
