ABSTRACT

This activity is motivated by the need for community groups to develop an area around them. The purpose of this activity is to increase the understanding of Kalibening villagers about the development of Kalibening tourism village area, Dukun sub-district, Magelang district for empowering local communities and developing facilities in the Kalibening tourism village, Dukun sub-district, Magelang district for local community empowerment. As the target of the activity were all Kalibening villagers, Dukun sub-district, Magelang regency along with spots that were developed into village facilities.

The implementation of PPM activities contained several things that were adjusted to the original plan. The servant initially planned the activities in the form of needs analysis, design development, facility construction, and assistance during facility maintenance. However, the implementation of PPM in 2018 which in terms of time is quite short, then the initial activity is changed to needs analysis, design development, (micro) facility development. This is because, at the end of June the facility development design activity has just been completed and at this stage requires time for socialization and discussion with Kalibening villagers, Dukun sub-district, Magelang district.

Based on the results and discussion of the implementation of PPM activities in the form of increasing the understanding of Kalibening Village community members about the construction of the Kalibening tourism village area, Dukun sub-district, Magelang district to empower local communities; and development in the form of facility construction in the Kalibening tourism village, Dukun sub-district, Magelang district for the empowerment of local communities can be concluded as follows: 1) the Kalibening Village community during the training was generally able to understand the concept of developing and managing the Kalibening tourism village area, Dukun district, Magelang Regency for the empowerment of local communities; 2) the Kalibening Village community together with the PTSP FT UNY service team jointly undertook the construction of facilities in the Kalibening tourism village in the form of providing clean water and healthy bathrooms to optimize the tourism village and to empower local communities; 3) the form of assistance carried out to date is the completion of the process of constructing facilities in the Kalibening tourism village in the form of providing clean water and healthy bathrooms.
