

# PELATIHAN PEMBUATAN MEDIA PEMBELAJARAN BERBASIS MULTIMEDIA UNTUK GURU-GURU SMP SEKABUPATEN BANTUL

by Sigit Yatmono<sup>1</sup>, Setya Utama<sup>2</sup>, Pangat Hendro<sup>3</sup>

## ABSTRACT

*Training within the framework of the Community Service aims to provide supplies of science and technology on the processing of digital media on the Internet, to be ready to be developed into a medium of learning. While trainees are SMP's teachers who are in Kabupaten Bantul.*

*The process begins with registration activities with a minimum requirement of participants were able to operate the computer well. Providing material starting from the introduction of digital media on the Internet. After being awarded a way on how to download and retrieve digital media either from the Internet or from other sources. Then taught how to cultivate the media that has been collected. The training uses some software that are already installed in many Windows-based computers. Of the participants with the number of 34 teachers, all of them can be trained from the beginning to the end.*
