ABSTRACT

Writing classroom action research (CAR) proposals is an effort to improve the performance of teachers of SMP Negeri 4 Pakem. Writing CAR proposals was conducted through lecture, performance, and presentation methods. The target audience is the teachers of SMP Negeri 4 Pakem teaching the subjects of Religion, Civics, English, Indonesian, Javanese, Mathematics, Science and Sports. There were 29 teachers invited to take part in writing CAR proposals. The teachers were divided into five groups to make class action research (CAR) proposals. The results of the workshop were in the form of final class action research proposal drafts from 5 groups. These five proposals had fulfilled the components of the CAR proposals and they are ready to be implemented in real CAR.

Kata Kunci: proposal, classroom action research, teachers' performance
