

THE DEVELOPMENT OF BLENDED LEARNING IN THE COOURSE OF "DEVELOPTMENT OF LEARNING LANGUAGE LEARNING" AS EFFORTS TO IMPROVE THE QUALITY OF LEARNING STUDY IN MASTER DEGREE PROGRAM OF INDONESIAN LANGUAGE AND LITERATURE EDUCATION

by KASTAM, SYAMSI

ABSTRACT

The purpose of this research is to improve the quality of learning, especially in the Indonesian Language and Literature Education study program (S2) through the application of innovative learning that utilizes IT, the Blended Learning model. With this program, the lecture situation will be brought in a contemporary world that combines technology and face-to-face lectures.

The steps of this development activity will include the following activities: (1) preparation, (2) program design and development, (3) program implementation, and (4) program evaluation. Following is an explanation of each step.

This activity has succeeded in developing a model of blended learning lectures "Development of Language Learning" contained in the Indonesian Language and Literature Education Masters Program. In this course, students already have the competence to master approaches, methods and strategies that are effective for teaching Indonesian. Topics covered include various approaches and methods for the latest language learning based on the results of research in the acquisition and learning of the latest languages. Organizing lectures in this program include online and offline meetings.
