## **ABSTRACT**

Improving the skills of PJOK SMP teachers in Yogyakarta in utilizing Edmodo-based e-learning for online learning. It is hoped that through the use of Edmodo as a means of learning PJOK online, it will make it easier for teachers and students in the teaching and learning process as well as learning progress to be monitored by teachers and parents so that it is expected to increase motivation and learning outcomes. The learning process has an impact on the low motivation and satisfaction of students in PJOK learning, so it is feared that learning objectives are difficult to achieve. In order to increase students' learning motivation in online learning, teachers need to take advantage of the use of attractive digital platforms. One of the platforms that can be used in the online learning process is Edmodo.
